Canada's Largest eBook Collection for Libraries
La plus grande collection eBook en ligne du Canada

Subscribe to the Canadian Health Research Collection and offer your library patrons:

- ✓ online access to over 7,500 searchable and printable health-related publications
- ✓ updated materials with more than 1,600 additional documents each year
- ✓ monograph publications from Canadian research institutes, government agencies and university centres working in the area of health and medical research
- ✓ primary research from publishers including both general policy and specialized technical documents

"CHRC addresses an important problem, with information on the Canadian health care system not well indexed or distributed. Much useful information is hidden in technical reports of research bodies, varying from university research institutes to think tanks such as the Fraser Institute.

Even though many are available in electronic form on the Internet, these publications are difficult for libraries to make accessible."

*Jim Henderson
